

**RENEGADE**<sup>®</sup>  
HOOF BOOTS

*Cutting back the boot*

*Cutting back the boot is not usually required if the boot extends less than 7mm from the back of the heel. But allow a few mm extra to offer support to the heel when landing.*

*Assess the amount to be cut back*

*Allow a few mm extra and mark the boot*

*Use nippers, tin snips or heavy duty scissors*

*Cut along the marked line*

*Tidying the cut edge is optional*
